

4004

**ANNUAL REPORT**

OF

Name: WISCONSIN BELL INC.

---

Principal Office: 722 N. BROADWAY  
MILWAUKEE, WI 53202

---

For the Year Ended: DECEMBER 31, 1996

---

TELECOMMUNICATIONS UTILITY  
TO  
PUBLIC SERVICE COMMISSION OF WISCONSIN

P.O. Box 7854  
Madison, WI 53707-7854  
(608) 267-9504

*This form is required under Wis. Stat. § 196.07. Failure to file the form by the statutory filing date can result in the imposition of a penalty under Wis. Stat. § 196.66. The penalty which can be imposed by this section of the statutes is a forfeiture of not less than \$25 nor more than \$5,000 for each violation. Each day subsequent to the filing date constitutes a separate and distinct violation. The filed form is available to the public and personally identifiable information may be used for purposes other than those related to public utility regulation.*

## GENERAL RULES FOR REPORTING

1. Unless otherwise indicated, the information requested in this report should be taken from the accounts and other records in conformity with the Uniform System of Accounts prescribed by the Public Service Commission of Wisconsin in docket 05-US-102. The definitions and instructions contained therein should also apply to the report wherever applicable. A query or response concerning information contained in this report regarding any practice or transaction should not be construed as indicating conformity to accounting or other pertinent regulations.
2. Please follow all instructions and answer each question fully and accurately. Provide additional information as necessary to avoid misunderstandings or misleading responses. Abbreviations listed on page 6 may be used, however please show the exact name of the respondent in full on the "Identification and Ownership" page.
3. Wherever information is requested in a "note", please show that information in the space provided, or make reference to the adjacent page or insert where the note may be found. Please also identify each note. Footnote capability is included in the annual report software program. Please use it where necessary to fully explain particulars in the annual report.
4. Numeric items are limited to digits (0-9). A minus sign "-" should be entered in the software program to indicate negative values. Do not use parentheses for numeric values. The program will convert the minus sign to parentheses when a hard copy of the annual report is printed. Negative values may not be allowed for certain entries in the annual report due to restrictions contained in the software program.
5. Please report all dollar amounts to the nearest whole dollar.
6. This annual report should be complete in all respects. Unless otherwise authorized, avoid references to returns of former years or to other reports.
7. Wherever schedules call for data from the previous year and such data were reported in the previous annual report, that previous year's data should be reported without modification. If modified, an appropriate footnote indicator and explanation should be included in the current year's annual report.
8. Where part or all of the report is prepared by other than utility personnel, a disclosure is required in the notes to the income statement or the balance sheet, which describes the nature and extent of work performed.
9. Please print a hard copy of the annual report on 20 pound or heavier paper, sign it and compare with the electronic copy before officially filing it with the Public Service Commission of Wisconsin.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Access Line</b>	Central office line equipment, or equivalent, and all outside plant facilities, or equivalent, required to connect the serving central office with the customer premises via physical connection, frequency transmission, and/or time slot transmission. From an engineering perspective, a channel connection is at a DS0 level. A DS0 level is a 4 KHz voice channel or a 64 kilobits per second digital channel.
<b>Analog Signal</b>	A signal that varies in a continuous manner such as voice or music. An analog signal must be contrasted with a digital signal which can assume only discrete values.
<b>Cellular System</b>	A high capacity land mobile radio system in which an assigned frequency spectrum is divided into discrete channels that are assigned to a cellular geographic serving area.
<b>Central Office</b>	A switching unit in a telephone system providing service to the general public, having the necessary equipment and operating arrangements for terminating and interconnecting lines and trunks.
<b>Centrex</b>	A service for customers with many stations that permits station-to-station dialing, one listed directory number for the customer, direct inward dialing to a particular station and station identification on outgoing calls. The switching functions are performed in a central office (stand alone, host or remote).
<b>Channel</b>	An electrical communications path between two or more points. A single pair of wires may provide more than one channel. A channel may also be provided by microwave.
<b>Customer</b>	A person who uses a telephone as a subscriber.
<b>Digital Signal</b>	A signal that has a limited number of discrete states. This may be contrasted with an analog signal that varies in a continuous manner and may have an infinite number of states.
<b>Equal Access</b>	The ability of the subscriber to use any long distance service by dialing the same number of digits.
<b>Exchange</b>	A defined area served by one or more central offices regardless of technical serving arrangements within which the company furnishes service at rates and rules prescribed for that area in the company's filed tariffs. The area is not necessarily marked by political boundaries or the location of host or remote switching units.
<b>Extended Area Service (EAS)</b>	The ability of a customer to call customers in other exchanges at no additional charge or at an additional charge per tariff.
<b>Extended Community Calling (ECC)</b>	The ability of a customer to call customers in other exchanges at rates usually above EAS rates but below toll rates for comparable distances. Rates generally include a duration element.
<b>Feature Group A</b>	Line-side originating and terminating LATA access for which an originating subscriber dials an assigned telephone number that connects to a specific interexchange carrier (IC). The IC returns a tone to signal the caller to input additional generated digits of the called number.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Feature Group B</b>	Trunk-side originating and terminating LATA access for which an originating subscriber dials a 950-WXXX number (where W=0, 1 and XXX is the carrier access code (CAC)), which is translated to a specific XXX carrier trunk group. Optional rotary dial service and ANI may be available.
<b>Feature Group C</b>	Trunk-side LATA access for AT&T-Communications generally on a direct basis between each end office (EO) and an AT&T-C switching system.
<b>Feature Group D</b>	Also referred to as equal access. It is trunk-side LATA access affording call supervision of an interexchange carrier, a uniform access code (10XXXXX), optional calling party identification, recording of access-charge billing details and presubscription to a customer specified interexchange carrier.
<b>FX-IN</b>	A nonswitched service where the customer of the company is connected to and receives switching service through central office equipment located in another exchange area.
<b>FX-OUT</b>	A switched service where facilities are provided from the central office out to the exchange boundary where it meets the line from a foreign exchange subscriber.
<b>Host Switching System</b>	A switching system that provides centralized control over most of the switching functions of one or more remote switching units. The host switching system usually provides trunk access to the operating company intraLATA networks.
<b>Local Access Transport Area (LATA)</b>	A geographic area within which an operating company may offer its telecommunications services.
<b>Mobile Telephone</b>	A service which provides radio telephone communication from a mobile vehicle to another vehicle or to a regular telephone.
<b>Paging</b>	A service which provides one-way signal or voice communication over a radio channel to a miniature receiver carried by the customer.
<b>Pair</b>	Two wires of a single circuit.
<b>Pay Station</b>	A telephone which normally requires all users to deposit one or more coins or use a credit card to complete a call.
<b>Private Line Service</b>	Channel or circuit rented for private use and not intended to be connected to the general distribution system.
<b>Private Branch Exchange (PBX)</b>	A manually, or operator controlled switching system, usually on the customer's premises, which serves that customer's telephones over a common group of lines from the central office.
<b>Radio Common Carrier (RCC)</b>	A company which furnishes public telecommunications service using one or more radio channels.
<b>Remote Switching Unit (RSU)</b>	An electronic switching system that is remote from its host or control office. All of the central control equipment for the RSU is located in the host switching system.

**ANNUAL TELECOMMUNICATIONS REPORT GLOSSARY OF TERMS**

<b>Route Miles</b>	<p>Total number of route miles (to the nearest mile) of operating plant facilities including drop wire in the exchange. One route mile may consist of:</p> <ol style="list-style-type: none"><li>1. One mile of roadway with any combination of outside plant facilities on any number of rights-of-way.</li><li>2. One mile of a cross country route with any combination of outside plant facilities.</li><li>3. One mile of point-to-point microwave or radio link.</li><li>4. One mile of plant on either side of a limited access highway or natural barrier, such as a navigable waterway.</li><li>5. One mile of joint use line where the utility either owns the facility or leases space.</li></ol>
<b>Stand Alone Switch</b>	<p>A central office switch which has no remote switching units (RSUs) subtending it.</p>
<b>Trunk</b>	<p>A communications path connecting two switching systems in the establishment of an end-to-end connection.</p>
<b>Wide Area Telephone Service (WATS)</b>	<p>Customer leased access line or lines connected to the nationwide network over which an unlimited number of calls can be made for a fixed monthly charge.</p>
<b>Wire Center</b>	<p>The location of one or more local switching systems. A point at which customers' loops converge.</p>

## NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

1. A summary of significant accounting policies. (The summaries should disclose, but not be limited to, the utility's accounting policies with regard to pension cost, unbilled revenues, depreciation, and income taxes.)

See Footnote A of the Schedule Line Footnotes on separate Word Processing document printout.

A) The notes to the income statement and balance sheet referenced on page 9 are as follows:

1. Significant Accounting Policies

**Basis of Accounting** - The financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) to the extent permitted by the Uniform System of Accounts prescribed by the Commission in Docket 05-US-102.

**Reporting Requirements** - Effective 10-01-90, the Commission directed Wisconsin Bell, Inc. (the 'Company') to implement SR accounting and reporting requirements per Final Order in Docket 6720-TR-104 dated 09-05-90. Accordingly, the 1996 PSCW Annual Report is presented on an SR basis.

Revenues are recorded when earned.

**Depreciation** - Effective 01-01-95, new intrastate depreciation rates were implemented per Order in Docket 05-DT-101 dated 09-11-95. The Company implemented the maximum composite rate of 8.5%. New rates for intrastate depreciation are prescribed by the PSCW on a biennial basis.

**Allowance for Funds Used During Construction (AFUDC)** - Effective 09-01-95, the calculation of AFUDC changed per Supplemental Order in Docket 05-US-102 dated 10-31-95. The capitalization base changed from long-term telephone plant under construction (TPUC) to all TPUC. The capitalization rate changed from prime rate to average cost of debt.

**Pension and Employee Benefits** - Effective 01-01-87, Ameritech adopted the provisions of Statement Financial Accounting Standards No. 87 (SFAS 87), 'Employers' Accounting for Pensions.' SFAS 87 specifies the determination of pension expense based on the projected unit credit actuarial method.

In accordance with PSCW approval on 10-28-93, the Company adopted the provisions of Statement of Financial Accounting Standards No. 106 (SFAS 106), 'Employers' Accounting for Postretirement Benefits Other than Pensions,' and Statement of Financial Accounting Standards No. 112 (SFAS 112), 'Employers' Accounting for Postemployment Benefits,' retroactive to 01-01-93. SFAS 106 requires the cost of postretirement benefits granted to employees to be recognized as expense over the period in which the employee renders service and becomes eligible to receive benefits. SFAS 112 requires accrual accounting for the cost of postemployment benefits provided to former or inactive employees after employment but before retirement.

**Work Force Reduction Programs** - During 1994, Ameritech announced a plan to reduce its existing nonmanagement work force through implementation of an enhancement to the Ameritech Pension Plan by adding three years to both

**NOTES TO INCOME STATEMENT OR BALANCE SHEET**

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

enhancement to the Ameritech Pension Plan by adding three years to both the age and net credited service of eligible employees who leave the business during a designated period ending in 1995. As of 12-31-95, 1,113 employees have left the Company as a result of this work force reduction plan. The total cost of the plan to the Company during 1994 and 1995 equaled \$67.653 million. The Company accounted for these costs in accordance with Statement of Position (SOP) 95-02, Accounting for Work Force Reduction Programs for Telecommunications Utilities for Public Service Commission of Wisconsin Purposes, as approved by the Commission on 11-01-95.

Effective 01-01-95, management employees asked to leave the Company will receive a severance payment under the Management Separation Benefit Program. The Company accounts for this benefit in accordance with SFAS 112, 'Employers' Accounting for Postemployment Benefits,' accruing the separation cost when incurred. 1996 activity under this program involved 23 employees.

Reduction of the work force under both programs reflects technological improvements, consolidations, and initiatives to balance cost structure with emerging competition.

Compensated Absences - Prior to 01-01-88, the Company, in accordance with regulatory accounting practices, deferred the cost of earned employee vacations and other absences until payment was made. Such deferred costs were recorded as deferred charges in the accompanying balance sheets.  
(contin

## NOTES TO INCOME STATEMENT OR BALANCE SHEET

In the space provided below, disclose all material information not included elsewhere in this report that is necessary to make the financial statements clear and understandable. Included should be:

- 
2. A summary of significant contingent assets and liabilities existing at year end, including a brief explanation of any action initiated by the Internal Revenue Service, Wisconsin Department of Revenue, or the utility involving a possible assessment or refund of taxes.

None

continued from item 1 above:

As of 01-01-88, the Company began accruing and expensing these costs on a current basis. Deferred vacations and other absences applicable to 1987 are being amortized over 10 years in accordance with prescribed regulatory treatment.

Income Taxes - The Company is included in the consolidated federal income tax return filed by Ameritech and its subsidiaries. Effective 01-01-94, the Company adopted the provisions of Statement of Financial Accounting Standards No. 109 (SFAS 109), 'Accounting for Income Taxes,' as approved by the PSCW on 03-23-93. The new accounting method is essentially a refinement of the liability method previously followed by the Company and accordingly did not have a significant impact on the Company's financial statements upon adoption. The Company's provision for income taxes is determined effectively on a separate Company basis. Consolidated income tax currently payable is allocated to the Company based on the Company's contribution to consolidated taxable income and tax credits.

Deferred tax assets and liabilities are based on differences between the financial statement basis of assets and liabilities and the tax basis of those same assets and liabilities. Under the liability method, deferred tax assets and liabilities at the end of each period are determined using the statutory tax rates in effect when these temporary differences are expected to reverse. Deferred income tax expense is measured by the change in net deferred income tax assets or liabilities during the year.

Income tax expense reflects use of the FCC method of full normalization of accounting for all book/tax timing differences as adopted by the PSCW on 12-12-89. The original estimated amount to be amortized of \$11.186 million was reduced to \$10.006 million. The original amortization period of 6 years was reduced to 5.4 years. Final amortization was booked in February, 1996.

The Company uses the deferral method of accounting for investment tax credits. Therefore, credits earned prior to the repeal of the investment tax credit by the Tax Reform Act of 1986 and also certain transitional credits earned after the repeal are being amortized as reductions in tax expense over the life of the plant that gave rise to the credits.  
[pasted from Word document 8/14/98 ele]

- 
3. The notes should include an explicit and precise explanation of any retained earnings restrictions and should state the amount of retained earnings affected by such restrictions.

None

Cash and cash equivalents at end of year (Accts. 1130-1160 for Class A; 1120 for Class B)		

---

**IMPORTANT CHANGES DURING THE YEAR**

---

1. Give the name and address of all companies which during the year came under the direct control of the respondent otherwise than through title to securities, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

Item 1    None

---

2. Give the name and address of all companies which during the year came under the indirect control of the respondent through non-reporting intermediaries, stating whether such control is sole or joint, how control was established, names of other parties to a joint agreement for control, the extent of control exercised by each party, the name and address of the intermediary through which the indirect control exists, and any other pertinent data requisite to a clear understanding of the arrangements relating to control (See Section 32.9000 of the Uniform System of Accounts). Where important details relating to control of a company have changed, give particulars. If during the year a company ceased to be controlled by the respondent, its name and a statement of fact will be sufficient.

Item 2    None

---

3. Important leaseholds acquired, given, assigned or surrendered, giving effective dates, lengths of terms, names of parties, rents, and other conditions.

Item 3    See Footnote B on page 56

B

B) Page 13, Important Changes During the Year , Item 3 information is as follows:

The following leases were terminated during the year:

Leases With	Termination Date	Term	Annual Payment
-------------	------------------	------	----------------

Megal Development Corp.	1-31-96	5 yrs.	\$ 38,880
-------------------------	---------	--------	-----------

E G Hoepfner & Assoc.	2-29-96	1 yr.	52,620
-----------------------	---------	-------	--------

Matrix	3-31-96	3 yrs.	550,668
--------	---------	--------	---------

Firstcom	9-30-96	10 yrs.	89,106
----------	---------	---------	--------

Inner City Development	12-31-96	1 yr.	20,892
------------------------	----------	-------	--------

No new leases were acquired during the year.

[pasted from Word document 8/14/98 ele]

---

4. List extension of system (other than additions supplementing existing facilities of the respondent) whether by purchase, construction, donation, or otherwise, such as a substantially complete telephone system, exchange or toll line. Give the location, new territory covered, and dates of beginning operation, and in case of purchase give also the name and address of the company from which purchased, date of acquisition, the consideration given, and reference to Commission authorization.

Item 4    None

---

**IMPORTANT CHANGES DURING THE YEAR**

---

5. Estimated increase or decrease in annual revenues due to important rate changes, giving bases of estimates.

Item 5    See Footnote C on page 56

C

C) Page 13, Important Changes During the Year, item 5 information is as follows

**Important Changes in Service and Rate Schedules**

Date of    Estimated Annual

Change@    Description of Change    Revenue    Impact

[pasted from Word document 8/14/98 ele]

---

6. Obligation incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, excluding ordinary commercial paper maturing on demand or not later than one year after date of issue.

Item 6    None

---

7. Changes in articles of incorporation or amendments to charter.

Item 7    None

---

8. Additional matters of fact (not elsewhere provided for) which respondent may desire to include in its report.

Item 8    None

**AFFILIATE ABBREVIATIONS**

In column (b) provide the abbreviation for the name of the affiliate shown in column (a). Limit abbreviations to 10 characters or less. Use these abbreviations when completing the affiliated interest schedules. Insert "Other" in the Abbreviations column if the activity to be reported for a particular record in the Affiliated Interest Transactions or Affiliated Assets and Liabilities schedule represents an aggregation of activity not exceeding the dollar or percentage limits set forth in the header of that schedule.

<b>Name of Affiliate (a)</b>	<b>Abbreviations (b)</b>

**AFFILIATED INTEREST TRANSACTIONS**

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

**AFFILIATED INTEREST TRANSACTIONS**

Provide a summary of transactions under established affiliated interest contracts and arrangements (see Wis. Stat. § 196.52, for "affiliated interest" definitions). Use the space below to report transactions with individual affiliates and multiple affiliated interest agreements or, at the utility's option, with individual affiliates and a single agreement. Activity associated with affiliated contracts or arrangements not in excess of \$25,000 or 5 percent of the equity of the utility, whichever is smaller, may be aggregated in a single record. For utilities whose intrastate gross operating revenues of the previous year exceeded \$100,000,000, individual contracts or arrangements not exceeding \$100,000 may be aggregated in a single record. Where an affiliate is both providing and receiving service use one record to show billings to and a second record for billings from. When billings to or from an affiliate are recorded on the books of the utility, the records underlying such billings shall be sufficient to show all the detail maintained to identify the associated accounts related to the billing and categorize billings according to the account categories shown below.

**AFFILIATED ASSETS AND LIABILITIES**

This schedule should be used to report affiliated activity concerning balances at the end of the year for the following accounts: 1120, Cash and Equivalents; 1160, Temporary Investments; 1180, Telecommunications Accounts Receivable; 1190, Other Accounts Receivable; 1210, Interest and Dividends Receivable; 1401, Investment in Affiliated Companies; 4010, Accounts Payable; and 4260, Advances from Affiliated Companies. Amounts at the end of the year for each affiliate should be identified by respective affiliate and account number. Report information below consecutively by respective account number; affiliated amounts of less than \$5,000 may be reported in aggregate as "other" for a particular account. Affiliated amounts recorded in accounts 1200, Notes Receivable, 1408, Sinking Funds, and 4020, Notes Payable, should not be reported in this schedule, but rather in the respective schedules contained elsewhere in this report.

**TELECOMMUNICATIONS PLANT IN SERVICE CLASS A & B (SUB-CLASS ACCOUNTS)**

Report telecommunications plant data for each subaccount where primary plant accounts have subclassifications. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone plant at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

**ACCUMULATED DEPRECIATION CLASS A & B (SUB-CLASS ACCOUNTS)**

Where subclassifications of primary plant accounts are used, report below the accumulated depreciation details for each subaccount. Amounts pertaining to subaccount 2212.4, Test Equipment, should be reported in account 2212.2, Digital Switching - Central Office; amounts for subaccounts 2231.3, Microwave, 2231.4, Cellular, 2231.5, Mobile Radio, and 2231.6, Paging, should be included in 2231.2, Other Radio Facilities; amounts pertaining to subaccounts 2232.4, Digital Data Services, 2232.5, Digital Circuit - Subscriber, 2232.6, Digital Circuit - Trunk - Toll, and 2232.7, Concentrators, should be reported in 2232.1, Digital Circuit Equipment. Any other separate accounting for telephone accumulated depreciation at an individual telephone company should be consolidated and reported in the primary accounts as defined in the uniform system of accounts.

## NET DEFERRED OPERATING INCOME TAXES (ACCT. 1350, 1410, 1437, 4100, 4340, 4341 & 4361)

This schedule should be used to report the deferred operating income tax portion of the stated accounts. In addition, column (e) of this schedule should be used to report the flowback of property related excess deferred taxes (e.g., 46 percent versus 34 percent federal tax rates). Credit amounts should be shown in ( ).

<b>Total Notes Payable</b>				<b>19,177,763</b>	

**LONG-TERM DEBT**

Report data requested and show total for each long-term debt account at end of year. Information concerning the following debt issues may be reported on individual lines in aggregate: REA/RTB 2%, REA/RTB 5%, & REA/RTB 7%. In addition, REA/RTB and FFB debt, respectively, within a range of 200 basis points may also be reported in aggregate on individual lines. If reported in aggregate, a range of dates may be reported in columns (b) and (c) as well as a range of interest rates in column (d) and a composite interest rate in column (e). If aggregation is not utilized, column (e) should contain the same interest rate as reported in column (d). For account 4050 report only the amount of debt anticipated to be repaid in one year or less.

<b>Description of Debt (a)</b>	<b>Specific or Range of Stated Dates of Issue (b)</b>	<b>Specific or Range of Stated Dates of Maturity (c)</b>	<b>Specific or Range of Interest Rates (d)</b>

**OUT-OF-STATE OPERATING REVENUES**

1. This schedule is to be completed only by those companies having out-of-state revenues. For the purpose of completing this schedule, and for PSCW use in calculating Wisconsin remainder assessment revenues, out-of-state revenues are specifically defined in headnote 2.
2. Out-of-state revenues are those derived exclusively from communications physically originating outside of Wisconsin. Out-of-state revenues do not include a) access revenues from "inbound" communications originating outside the state, or b) revenues from communications originating in Wisconsin and terminating outside the state, or c) revenues allocable to Wisconsin-based facilities used for communications originating and terminating outside of the state.

Description (a)	This Year (b)	
Out-of-state operating revenues	0	1
Less: current year write-offs of uncollectible accounts - out-of-state utility customers only	0	2
Plus: current year collection of out-of-state utility customer accounts previously written off	0	3
<b>Net out-of-state operating revenues</b>	<b>0</b>

**GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES****Affiliated Interest Transactions Footnote. Page 15**

See separate Word Processing document printout.

For Billing to Affiliates, lines 5 through 8 and 10 through 14, account categorization has been derived in billings to affiliates using affiliated billing Account information.

[pasted from Word document 8/14/98 ele]

D) Page 15, Affiliated Interest Transactions :

Percentage provided for only those affiliates reporting "FROM" on page 15, line 2 and Market Price (M) or

Other (O) on page 15, line 3, pursuant to verbal agreement between Wisconsin Bell, Inc. and PSCW Staff on 02-22-96.

Docket numbers listed as None :

Commission regulations do not require docket numbers for affiliates with less than or equal to \$100,000 in activity.

ACC = None

A contract was not filed in 1996 because Wisconsin Bell anticipated that the transactions would not exceed the \$100,000 threshold for filing.

Docket numbers listed as Various are as follow:

AIS = Various

#6720-AT-110

6720-AT-111

6720-AT-112

AIT = Various

#6720-AT-5

6720-AT-115

AMCI = Various

**GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES****Telecommunications Plant in Service Class A & B Footnote. Page 22**

F) Page 23, Telecommunications Plant In Service - Main Accounts column G, Transfers and Adjustments,  
Page 25, Telecommunications Plant - Sub Accounts, column G, Transfers and Adjustments :

The amounts represent miscellaneous transfers and adjustments during 1996. This includes reclassifications of plant and corporate adjustment entries which do not include an initial expenditure.

[pasted from Word document 8/14/98 ele]

) Page 22/23,copy 2, Telecommunications Plant In Service, Account 2001, line 34, column h :

The nonregulated activity is calculated per PSC directive based on a ratio of nonregulated Plant in Service to Total Company Plant in Service. The source is the 1996 Earnings Monitor Report, Docket 6720-T1-109, Worksheet A. The ratio is multiplied by total regulated & nonregulated plant in service from page 23 to derive nonregulated activity.

[pasted from Word document 8/14/98 ele]

F) Page 23, Telecommunications Plant In Service - Main Accounts column G, Transfers and Adjustments,  
Page 25, Telecommunications Plant - Sub Accounts, column G, Transfers and Adjustments :

The amounts represent miscellaneous transfers and adjustments during 1996. This includes reclassifications of plant and corporate adjustment entries which do not include an initial expenditure.

[pasted from Word document 8/14/98 ele]

**Accumulated Depreciation Class A & B Footnote. Page 26**

See separate Word Processing Document Printout.

The annual accrual in column E, account 3100, after line 29, allocation to non-regulated activity, is from the 1996 Earnings Monitor Report, Docket 6720-TI-109, Worksheet A, row 8, column B2.

The allocation to non-regulated Balance EOY in column L, account 3100, after line 29 is calculated per PSC directive based on a ratio of non-regulated accumulated depreciation to total accumulated depreciation from the 1996 Earnings Monitor Report, Docket 6720-TI-109, Worksheet A line 50. This ratio of .0117 was multiplied by total Accumulated Depreciation of \$1,419,766,309.

[pasted from Word document 8/14/98 ele]

) Page 26/27, Accumulated Depreciation Class A & B - Main Accounts , column K, Other and  
Pages 28/29, Accumulated Depreciation Class A & B - Sub Accounts , column K, Other :

The amounts in column (k) represent miscellaneous plant transfers and reserve reclassifications.

[pasted from Word document 8/14/98 ele]

**GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES****Expense Matrix - Class A & B Footnote. Page 41**

H) Pages 41/42, Expense Matrix - Class A & B, Explanations for expense variances over 20% and greater than \$5000:

Account 6110 - Higher motor vehicle and other equipment expenses.

Account 6120 - Primarily lower general purpose computers and office equipment expenses.

Account 6210 - Due to Part 64 changes.

Account 6220 - Increase in operator systems repairs.

Account 6310 - Primarily increased cost of goods sold related to growth in consumer CPE sales.

Account 6510 - Lower ASI billing.                      Account 6560 - Due to Part 64 changes

Account 6620 - Due to Part 64 changes

Account 6710 - Due to Part 64 changes

Account 6720 - Significant restructuring credits in 1995 associated with work force reduction plans. In addition, higher ASI billing and collection costs.

[pasted from Word document 8/14/98 ele]

**Out-of-State Operating Revenues Footnote. Page 43****Nonregulated Net Income (Acct. 7990) Footnote. Page 45**

This schedule revised from utility faxed information by ele on 7/9/97

**Telephone Calls and Minutes of Use Per Month Footnote. Page 47**

M) Page 47, Telephone Calls & Minutes of Use - Local, lines 3 and 4 :

The Traffic Separations process develops total (completed and uncompleted) calls and minutes of use by end office switch usage, billing data, etc.

The originating and terminating completed calls and minutes of use reported were derived by using a call completion ratio against total calls and minutes of use.

N) Page 47, Telephone Calls & Minutes of Use - Toll, lines 5 through 12 :

Toll calls and minutes of use are originating calls and minutes of use.

Completed calls and minutes of use are not available.

[pasted from Word document 8/14/98 ele]

**Special Access Circuits in Use at End of Year Footnote. Page 49**

K) Page 49, Special Access Circuits In Use At End Of Year, columns b and c, lines I through 5:

This schedule contains non-switched data only.

[pasted from Word document 8/14/98 ele]

**GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES****Service Data Footnote. Page 50**

Service Data, lines 30 and 31:

Interlata and Intralata special access lines equal non-switched only. The Interlata line 35 & Intralata line 33 includes only non-switched equivalent access lines. The total number of switched lines for all exchanges is 452 for both interlata and intralata together. We do not have the capability of breaking out switched access equivalent access lines for interlata and intralata.

E) Page 51, Service Data, line 7 column b:

The actual FOY amount is \$ 2,302,828,775. Due to a limitation in the PSC LEC Annual Report software the amount of \$ 2,000,000,000 was entered into the cell.

[pasted from Word document 8/15/98 ele]

**Service Data - End of Year Footnote. Page 52**

Service Data-End of Year, lines 33 and 35:

Interlata and Intralata special access lines equal non-switched only. The Interlata line 35 and Intralata line 33 includes only non-switched equivalent access lines. The total number of switched access lines for all exchanges is 452 for both interlata and intralata together. We do not have the capability of breaking out switched access equivalent access lines for interlata and intralata.

**GENERAL, SCHEDULE LEVEL AND SCHEDULE LINE FOOTNOTES****Central Office Data - End of Year Footnote. Page 55**

In reference to lines 29 & 30 :

Service not available from Wisconsin Bell, Inc.

In reference to lines 23-28 and 31-36 :

In wire centers with more than one switching entity, general wire center data is reported under the digital switch in that office.

Q) Page 55, Copy 4, Central Office Data :

Customers in this Exchange/Central Office are served by PSCW Exchange ID 0380/PSCW Central Office ID 1. All data that is reported is the same data as the serving switch except for lines 14, 15, 16 which were derived per PSC directive based on a ratio of access lines for use in the non-serving switch to access lines in use for the serving switch.

R) Page 55, Copy 14, Central Office Data :
